

Become a Volunteer Clinician!

How Does It Work?

1. **Donate** one pro bono session per week to a client who has experienced foster care.
2. **Learn** with colleagues and experienced clinicians through AHW consultation groups.
3. **Access** free Continuing Education through our robust CE program and home study library.
4. **Connect** with a caring community of like-minded clinicians through a local AHW chapter and nationwide events.

Scan Me!

“
It is deeply satisfying to work with my client over the years, to bear witness to her courage, resilience, and determination
”
